REGULATIONS

- Children aged 1 to 5 years – children under 1 year of age enter free of charge. All children wearing appropriate swim diapers may use exclusively the outdoor children's pool.
- Time spent in the pool is calculated from the moment of passing through the entrance turnstile at the cashier until the wristbands are returned at the cashier.
- In the event of loss of the wristband, the full-day admission ticket will be charged.
- A surcharge of € 4.00 will be applied for every additional 15 minutes beyond the purchased time.
- For greater relaxation, we recommend visiting the pool between 12:30 pm and 4:00 pm; during these hours, children are not advised to enter the thermal pool.
- The outdoor area equipped with sun loungers is open from May 1st to November 1st.
- What to bring: swim cap and slippers (mandatory), padlock, beach towel or bathrobe.
- Important: external climatic changes, combined with variations in the chemical and physical characteristics of the thermal water depending on the extraction wells, may occasionally and temporarily cause the formation of algae inside our pools. These are completely harmless and do not in any way alter the therapeutic and relaxing properties of the thermal water. The same external factors may temporarily affect the water temperature. Management reserves the right to close access to the thermal pool to external guests at any time.
